ERRATUM

Adopted: May 30, 2002 **Released: May 31, 2002**

By the Chief, Office of Engineering and Technology:

1. On April 22, 2002, the Commission released its *First Report and Order* ("*Order*"), FCC 02-48, in the above entitled proceeding.[1] Subsequent to the release of this *Order*, we noted that paragraphs (e) through (g) of Section 15.517 were inadvertently mislabeled, resulting in an incorrect paragraph reference in paragraph (e) of Section 15.517. We also noted that there was a typographical error in the tables contained in paragraph 67 of the text and in Section 15.519(c) of the rules in Appendix D. The discussion contained in paragraphs 183, 193, 199 and 224 of the *Order* clearly indicates that the frequency ranges contained in the tables should have been specified as 1610-1990 MHz and as 1990-3100 MHz.

2. To correct these errors, we are redesignating paragraphs (e) through (g) of Section 15.517 as paragraphs (d) through (f), and are modifying the introductory sentence of what becomes paragraph (d) to read: "In addition to the radiated emission limits specified in the table in paragraph (c) of this section, UWB transmitters …" In addition, we are revising the table in Section 15.519(c) of the rules to read as follows:

Frequency in MHz	EIRP in dBm
960-1610	-75.3
1610-1990	-63.3
1990-3100	-61.3
3100-10600	-41.3
Above 10600	-61.3

3. IT IS ORDERED, that this Erratum is issued pursuant to the delegated authority contained in 47 CFR Sections 0.31 and 0.241.

[1] *See First Report and Order* in ET Docket No. 98-153, 67 Fed. Reg. 34852, May 16, 2002.

Edmond J. Thomas
Chief, Office of Engineering and Technology
